cago, 3. Stolen base—Roush. Passed ball—Rariden, Schalk, Lynn.
Struck out—By Eller, 8; Williams, 3. Base on balls—Eller, 1; Wil-
liams, 2; Mayer, 1. Attendance—25,000. Time of game—One hour
and forty minutes. Umpires—Messrs. Rigler, Quigley, Evans, Nallin.

Eller Is Hero of Fifth Contest, Letting White Sox Down With Three Hits—Strikes Out Nine.

Comiskey Park, Chicago, Oct. 6.—Before the eyes of the Chicago White Sox this afternoon there spun a baseball that acted as a thing bewitched.
The ball came from the hand of "Hod" Eller, a thick-set young pitcher on the Cincinnati Reds, bulked out there on the pitching mound. He seemed no different from any other pitcher as he drew back his right arm and lashed the ball toward the batters with all the stereotyped motions of the moundsman approved by years of baseball. But the ball, as it went whistling across the breasts of some of the greatest hitters in the American League, twisted and turned and dipped and dropped in uncanny fashion, and the throaty voice of Umpire Charley Rigler came to the ears of the startled batters, slowly intoning the strikes.

It was the "shine" ball which carried the Chicago White Sox home to a couple of American League championships, coming home to roost, for they say Eller rubs the magic of his pitching into the baseball along the seam of his trousers, after the manner of Eddie Cicotte, of the Sox.
Today the young hurling Aladdin of the Reds held the Chicago club to three hits, and shut them out series of 1919. One more victory to 9 in the fifth game of the and the Cincinnati are cham-
pions of the baseball world.
Eller struck out nine of the Sox. Six of them in succession went down before the strange spell of his de-
livery. The 34,000 people banked around the field sat breathlessly silent as they watched him in the early innings to finally leap to their feet in a tremendous ovation.

Fired by White Sox.
Like Eddie Roush, Eller is a White Sox cast-off. He had a brief trial with the Chicago club some years ago. They sent him away as lacking in ability, experience and about everything else that a baseball pitcher is supposed to have. Somewhere in his subsequent wanderings, Eller learned the secret of the "shine ball." Tonight he is the young master of that particular mystery of the pitching craft, as Eddie Cicotte, the

DEMOCRAT PLAN IS TO REJECT THE PACT IF AMENDED

Policy of Administration to Vote Against Treaty With Reservations.
Administration Senators, under the leadership of Senator Hitchcock, will vote to reject the treaty if the Lodge reservations or reservations similar to them are adopted by the Senate.
This was announced by Senator Hitchcock yesterday afternoon, following a visit to the White House. Senator Hitchcock did not see the President, but conferred with Secretary Tumulty to whom he communicated the latest facts concern-
ing the situation in the Senate.
In Senator Hitchcock's opinion, the reservations proposed by the Foreign Relations Committee are equivalent to amendments and the effect of their adoption will be to make the treaty so objectionable to the other signatory powers that they will not accept it. The policy

Wants Committee of 21 Handle All Soldier Laws

A select committee of twenty-one members of the House, twelve Republicans and nine Democrats, to consider all legislation relating to all honorably discharged officers, soldiers, sailors and Marines of the world war is proposed in a resolution introduced yesterday by Representative Hull.
The select committee would take from other committees the various bills now pending and others to be introduced which provide for civil re-establishment, vocational rehabilitation, educational facilities, employment, credits, additional compensation, including bonuses, hospital facilities, homes or allotment of lands, amendment to the war risk insurance act, and compensation for disabilities incurred in the service, including allotments.
Mr. Hull believes that by thus concentrating jurisdiction in one body, rather than leaving the measures scattered among half a dozen committees, consideration can be expedited and better legislation enacted.

Two Seriously Injured When Struck by Auto

J. R. O'Brien, Twenty-first and R streets northwest, and Mrs. Louise A. Lewis, 314 Eleventh street northeast, were seriously injured last night when struck by an automobile driven by James Henry Wyche, 1236 Bladensburg road northeast. Wyche is being held at the Ninth Precinct station house.

Kolchak Is Advancing.
Kolchak is continuing to improve his position in his operations against the Bolsheviks, according to dispatches reaching the State Department yesterday. The dispatches state that his forces have captured Tobolsk and that the fall of Kurgan is imminent.

CAPITAL AND LABOR BEGIN CONFERENCE

Four Plans for the Harmonizing of Labor and Capital Will Be Discussed by the Industrial Conference.

Sixty-two Delegates Respond to the First Roll Call at Round Table Gathering: Spirit of Concord Marks Assembly.

LANE IS CHOICE FOR PERMANENT CHAIRMAN

Secretary Wilson Presides At Opening of Council; Committees Named to Begin Active Work on Problems Today.

Franklin K. Lane, Secretary of Interior, will be proposed as personal chairman of the Industrial Conference, which got under way yesterday.

Without a dissenting voice late yesterday the organization committee, chosen by representatives of capital, labor and the public, agreed on Mr. Lane's name and it will be proposed to the full conference of sixty-six members this morning. The spirit of concord shown in the committee meeting was taken as a good omen of the future of the conference called by President Wilson to attempt to settle the problems and difficulties now existing between wealth and that which makes wealth possible.

Wilson Starts Meeting.
Promptly at 2:30 o'clock in the main hall of the Pan American Building, Secretary of Labor Wilson, upon whom fell the task of starting the meeting, mounted the platform, appointed a temporary secretary, and the session was on. With the exception of Mr. Wilson's keynote speech and the appointment of two committees of representatives of the three branches of conferees, no other business was considered yesterday.
"Surely human intelligence," said Mr. Wilson, "can devise some acceptable method of adjusting the relationship between employer and employee."
If you, in the abundance of your combined wisdom and experience, can produce an acceptable document of this character, the results of your work will find a place in the hearts of men like the Magna Charta, the Bill of Rights, the Declaration of Independence, the Constitution of the United States and the Emancipation Proclamation.
"In the name of the President of the United States and in his behalf, I wish you God speed in the great task before you."
Sixty-two men and women answered the call of the roll and included in this number were the leaders of the four railroad brotherhoods. The delegates gathered in the Hall of the Americas, a spacious meeting place, whose four corners bear shields with the word "pax" upon them.

Study in Human Nature.
It was a study in human nature to watch them assemble. Entering the Pan American Building they skirted a patio that was a mass of palm trees and tropical vegetation, walked up a broad marble stairway near which parrots of gorgeous

THREE BATTLE IN HOUSE; ONE DEAD

Negro Is Shot to Death; White Man and Negress Held.

One man is dead and another is seriously wounded as the result of a tri-cornered altercation at 114 L street northeast late last night.
Albert Dyer, Hattie Maria Lee, negroes, and Edward Kunkle, all of whom live at the above address, were the participants in the fight.
Dyer was shot in the left side; Kunkle was severely cut on the head by a glass pitcher. When police-
men broke into the house, Dyer and Kunkle were lying on the floor.
Dyer was rushed to Emergency Hospital, where he died at 11:56. Kunkle was treated for his wounds and held at the Second Precinct station house. The Lee woman is held in connection with the shooting. Dyer is alleged by the police to have struck Kunkle with the pitcher.

Kidnapped American Released.

Lindley Harper Spillard, an American, was kidnapped from his ranch near Vera Cruz, Mexico, and subsequently released when a hostage for him was furnished, the State Department was advised yesterday.

Right of Unionism to Be Subject Upon Which Big Fight May Center.

These four plans, or their modifications, will be presented and pushed at the conference and from them an idea may be gained of the scope of the conference.
But the bone of contention will be trades unionism. Unions will insist upon, grafting upon any plan adopted the right of unions to recognition, and the right of national officers of the unions to call strikes when strikes have been voted by men in any plant or in any national industry are insisted upon.
Certain employers, led by Judge Gary, are ready to grant

FAIR AND TITLED STRIKEBREAKER

LADY DROGHEDA

London.—On the job at four in the morning driving a motor transport isn't just what one expects of a titled woman. But Drogheda, one of Britain's beauties, has been doing just that for the food administration. She's one of the many volunteer workers helping to relieve the congestion caused by the British rail strike.

MAKING GEN. WOOD LOOK LIKE ROOSEVELT A REPUBLICAN TASK

Presidential Activity Follows Realization That President Wilson's Health Will Keep Him Out of the Race.

By OLIN W. KENNEDY.
Within the week some of the biggest political moves in history will be made.
Brought suddenly face to face with the fact that President Wilson will not be a candidate for re-nomination, leaders of both the dominant parties are active in the realignment of forces. While the recovery of Mr. Wilson is now an accepted fact it is known that the general condition of his health will not permit him to accept a nomination that would thrust his heavy burdens upon his frail constitution.
Until three weeks ago Democrats fully expected Mr. Wilson to be their leader. They felt that he wanted a third nomination and they were only too willing to give it to him.
Republicans, in casting about for a candidate, were taking Mr. Wilson into serious consideration. Their candidate would have been selected

CROUCH IS CHARGED WITH ABANDONMENT

White Plains, N. Y., Oct. 6.—A. W. Crouch, a naval architect, formerly of Yonkers, is under arrest in San Francisco on an indictment charging him with the abandonment of his wife and three boys. When he went away on February 22, 1917, the youngest child was but three months old. At the time of his disappearance Mrs. Violet Deegan, one of Crouch's close friends, and also an architect, also disappeared, and she later was located in San Francisco.
The June grand jury indicted Crouch. He was arrested last Thursday. The district attorney today began preparations to send deputy sheriffs to bring Crouch back. Maj. Deegan has a suit for divorce pending against Mrs. Deegan in which Crouch is named as co-respondent.

Chief Justice Refuses To Naturalize Foreigner

In refusing to naturalize a foreigner yesterday, Chief Justice Mc Coy referred to the condition of unrest in this country and declared that applicants for naturalization papers must evince a knowledge of and belief in our form of government.
He said the courts should be very careful in admitting aliens to American citizenship, which should be highly prized.

U. S. Citizenship Restored To Girl Married to German

The Senate yesterday adopted a joint resolution to restore American citizenship to Mrs. Frances Scoville-Mumm, a Kansas girl, who married the wealthy German champagne maker before the war. He lived in France, but was interned as an enemy.
Mrs. Scoville refused to go to Germany to live and asked that American citizenship be restored.

Senator May Name This Boy!

The Senator who will give the largest prize can name the baby boy of Anderson T. Thomas, Lake View, Ohio. Thomas made this proposition in a letter to Vice President Marshall, who laid it before the Senate yesterday. No bids have been offered for the privilege thus far.

PRESIDENT'S MIND KEEN ON AFFAIRS

Would Transact Business of State If Physicians Would Permit, But Rest Is Insisted Upon for Several Days by Dr. Grayson

SLIGHT IMPROVEMENT NOTED BY GRAYSON

Encouragement Is Felt By Attendants as Mr. Wilson Improves and Shows an Inclination to Get Back To His Desk.

The 10 p. m. bulletin issued by Dr. Grayson on the President's condition read:
"10 p. m. The President passed a fairly comfortable day with a slight improvement."

"Grayson."
The President's day was cause for encouragement to Dr. Grayson because of the improvement he noted. The chief duty of White House officials now, it seems, is to deny the many stories current about the President's illness. A flock of them was in circulation today.

The President's mind is keen and alert and he is perfectly able to pass judgment on anything brought to his attention. Dr. Grayson, however, is going to see to it that nothing is brought to him that would interfere with the President's gradual recovery. Continued improvement was noted in President Wilson's condition yesterday, and a prospect of further progress is bright.

The President has maintained and added somewhat to the weight gained in the last two days, and his chief desire now is to get back to work. Her Admiral Cary T. Wilson, his personal physician, and other doctors on the case, will permit this, however, and unless imperative situation arises with in next two weeks the President kept in ignorance of what is pining.

Pope Cables Sympathy
The State Department today received a message from Pope expressing sympathy for President and the hope of his recovery. The cablegram reads:

"The Holy Father is most about the condition of health of President Wilson. His Holiness prays for speedy recovery and would be grateful to be kept informed about the course of the illness of the illustrious patient."
(Signed) "CARDINAL GASPARRI."

Has Restful Night.
The President spent another restful night and weathered the heat and humidity of another mid-summer day. The first bulletin issued at the White House yesterday bore the signature not only of Dr. Grayson, but those

RIDS HOTEL OF WOMEN SEEKING A FREE MEAL

The delicate problem of ridding Washington hotels of a certain class of girls who loiter about the corridors during meal hours in hopes of "picking up" a gullible male and a free meal, has finally been solved by an ingenious trick devised by the manager of a prominent hotel.
When the girls start to congregate in the lobby before the dinner hour, awaiting a "guest" to invite them to a meal, a porter ambles upon the scene with his trusty bucket of suds and a mop. He then starts to clean up the marble floor, keeping the young ladies on the move and spoiling their chance of a "pick up."
There are few guests around the lobby at that time and it is an ideal opportunity to clean the place without disturbing anyone save the female "lounge lizards."

Arkansas Negroes Admit Plot to Massacre Whites

Helena, Ark., Oct. 6.—Negroes arrested during recent race riots in Helena, Ark., today confessed to a plot for a general uprising against whites in Phillips County. Announcement of the confession was made by the committee of seven appointed to investigate the Elaine riots.
The negroes, according to the committee, confessed that a large organization had been formed and October 6 chosen as the day for the uprising. They declared large quantities of guns and ammunition were accumulated by the negroes in preparation for the general slaughter.

Two Negroes Lynched By Mobs in Georgia

Washington, Ga., Oct. 6.—Jack Gordon and Will Brown, negroes, were taken from the Lincoln County Jail at Lincolnton early today by a mob and lynched. Following the lynching, the bodies of both negroes were burned at the stake, it was said.
Gordon was charged with shooting Deputy Sheriff Roy Freeman and Boyce Ferton, when the officers attempted to place him under arrest yesterday on charges of carrying concealed weapons and disorderly conduct. Brown was an alleged accomplice.
Freeman was reported to be dangerously wounded today and is not expected to recover. Deputy Ferton's wounds are not serious.

Chief Justice Refuses To Naturalize Foreigner

In refusing to naturalize a foreigner yesterday, Chief Justice Mc Coy referred to the condition of unrest in this country and declared that applicants for naturalization papers must evince a knowledge of and belief in our form of government.
He said the courts should be very careful in admitting aliens to American citizenship, which should be highly prized.
